

Midst Coffee Table

“Midst Table is a meeting between the poetic and functional. The name refers to the center and the table being a gravitational point. Its shape naturally draws us towards its middle, encouraging a meeting of minds and eyes. Our design process was one of subtraction and refinement. The Midst Table’s form and construction were inspired by an iconic architectural feature, the column, merging physical stability and steadfastness with a sense of elegance.”

Designed by	TAF Studio
About the Designer	TAF Studio is a Stockholm-based design and architecture studio, founded by Gabriella Gustafson and Mattias Ståhlbom. The duo works within product and interior design.
Environment	Indoor
Country of Production	Italy
Preassembled	No
Description	The Midst Coffee Table is a refined blend of sculptural form and luxurious materiality. Its round spun-steel base features a high-gloss finish, creating a striking contrast with the Grey Marble tabletop. The natural stone’s grey tones, intricate veining, and subtle blue undertones are enhanced by a honed matte finish, highlighting its rich details. A timeless design that brings a sense of sophistication to any space.
Material	Tabletop in marble. Marble is a metamorphic rock composed primarily of re-crystallized carbonate minerals, known for its natural veining and refined surface. With a timeless elegance, marble offers a unique and organic expression, making each piece one of a kind. Its smooth, cool touch enhances the tactile experience, while its durable nature ensures lasting beauty. Proper care helps preserve the marble’s integrity, maintaining its sophisticated appeal over time. The table base is made of powder-coated steel and comes with pre-mounted glides under it. Powder-coated steel has a subtle, textured expression and elegant feel while adding durability to the design and making it more corrosion- and chip-resistant. Due to the natural properties of marble, each piece is unique, with variations in color, veining, and texture.
Cleaning & Care	Clean the table with a damp cloth. If necessary, only use a mild detergent or washing-up liquid that is not concentrated to wipe the table. Always wipe with a dry cloth immediately afterward. Liquid, grease, etc., should be removed immediately to minimize the risk of stains and marks. The table is treated with a stone sealer that is water—and oil-repellent only. Customers can apply a stronger stone sealer to all tabletop surfaces if desired. Consult your local hardware store for advice.
