

CARE INSTRUCTIONS FOR OILED VENEER

DAILY CLEANING

Wipe with a clean, dry cloth or a cloth wrung out in clean water. If a wrung-out cloth or chamois is used, immediately wipe away the water with a clean, dry cloth.

THOROUGH CLEANING

Dirty surfaces should be wiped with a cloth which has been wrung out hard in soapy water. Again, dry immediately with a clean, dry cloth. Do be aware that liquid detergents will dissolve the oil, so oiling should be repeated. To do this, apply furniture oil evenly with a soft cloth or sponge in the direction of the grain in the wood. After 2-3 hours, the wood may be polished with a clean, dry cloth.

If intermediate sanding is needed, use fine sandpaper (no. 220). Never sand across the grain, and never use iron wool or wire sponges.

NOTE!

Avoid exposing the surfaces to water or other liquids for an extended period of time. Spilled liquids should be wiped away immediately.
