Product description:

A durable and practical wooden wall shelf with a good depth for easy storage or display. The lowest shelf can be used as a small desk in your home office when space is tight. The striking detail of the H-shaped end frames, which show off the beautiful grain of the pinewood, are joined to a solid top that smoothly embrace them.

Made from locally sourced Bosnian pine, a warm raw material and a great alternative to traditional slow-growing wood, this attractive wooden shelf is a sustainable choice. The shelf is finished with ultra-matt lacquer for extra protection. The Ordinary Storage Box fits neatly into the Beam Shelf.

Designer's thoughts:

'The inspiration for Beam Shelf came from architecture and construction. The wide side frames embrace and carry the shelves, which is highlighted by the rounded details of each shelf.' – Jonas Herman, Herman Studio
